

Definition:

blow smoke [blō smōk]

: to deceive others

Don't be fooled by smoke demonstration boxes

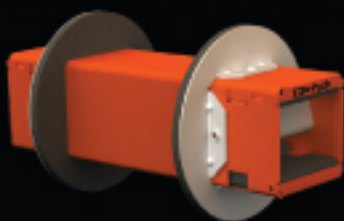

Party fog machines are used to create a scary atmosphere.

When used here, they are also intended to throw a scare into you!

THE PLAIN FACTS

- A box using a fan sucking simulated smoke from a pyrotechnic or party fog machine is neither scientific nor accurate.
- UL offers a legitimate testing program that measures a firestop's ability to restrict smoke transfer.
- UL Published L Ratings provide true evidence of code compliance.

EZ-Path® Systems...

- Predictable Performance
- Stops Fire, Resists Smoke-**ALWAYS**
- Published L Ratings
- Fully Code Compliant
- Meets NFPA 101
